Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-2,4,6-7,9,12-23,25,46-52,73-76 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Shah.

See the appropriate paragraph of the 10/2/07 Office action.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 77 is rejected under 35 U.S.C. 103(a) as being unpatentable over Shah.

See the appropriate paragraph of the 10/2/07 Office action.

Response to Arguments

Applicant's arguments filed 2/20/08 have been fully considered but they are not persuasive.

Applicant states Shah fails to teach “an expandable collector member ...second collection size.” The Office does not agree. Shaw clearly teaches these limitations in figures 1-4 that illustrate the absorbent sponge(56) having a first size(52) that is smaller than a second size after contact with the sample. The Office maintains Shah has been properly read on the instant claims.

Applicants traverse the 35 USC 103 rejections over Shah on the grounds the Office has failed to show sufficient motivation. Applicants state the logic used by the

Office, *In re Boesch* optimization of a result effective variable, is not relevant instant facts. The Office does not agree and maintains "Simple substitution of one known element for another to obtain predictable results" is within the skill of the art. The Office has viewed the choice of a perforated disk as a result effective variable that has the well known and predictable results discussed in the 10/2/07 Office action as being desirable to minimize weight and manufacturing costs.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
